

## Gated Communities

---

**Whistling Rock      Summerhill      Montana Vista      Canyon Verde      Fairway Hills**

1. Foothills Club West offers an electronic gate system at several different parcels located throughout the community. These gates are designed to be a deterrent to unauthorized persons, but are in no way a guarantee of personal safety or security. This system is only effective in controlling vehicle traffic.
2. Each resident's last name and first initial will be listed in the outside directory. Visitors will be able to scan alphabetically for your name, then push the “#” button and code next to name. The entry system will dial your phone and you will be in communication with the visitor at the gate.
3. If you wish to admit the guest, press or dial “9” on your phone. (Note: On short duration tone phones, press the “9” button twice.) The entry system will then put a tone in your receiver, open the gate and then hang up. If you do not wish to admit the guest, simply hang up. The entry system permits conversation for about one minute and will automatically hang up. (A short beep will be heard 10 seconds before disconnecting.)
4. Never attempt to force gate if your remote does not work! Severe damage to your vehicle and gate will result. The Association and Park Pro will not be responsible for damage to your vehicle. Appropriate emergency numbers are listed in the directory.
5. Please choose a four-digit code and write it in at the bottom of the page. To use the code, press # and then the code. Canyon Verde homeowners should press the number only (no pound).
6. A Fire Department Emergency Switch allows immediate emergency vehicle access. In a power failure, the gates can be opened manually and remain open until power returns.

***NOTE: THE GATES ARE FOR LIMITED ACCESS ONLY AND ARE NOT TO BE CONSIDERED A SECURITY SYSTEM. I will not attempt to force or tailgate through the gate as it may cause damage. The Association and Park Pro is not responsible for damages caused by the gate system.***

I have read and understand the above:
